WHAT TECHNOLOGY DO WE USE?

iLASIK - the most advanced, latest FDA approved LASIK technology. Wavefront guided custom mapping of your individual eye with our iDesign aberrometer and then correcting your vision using only lasers. No blades, cutting or stitching!

ENHANCEMENT POLICY

In the rare event that the patient isn't satisfied with their vision, we'll bring you in for a free visit with our doctor. No-charge enhancements for eligible patients offered for 24 months after their initial procedure.

WHAT IS THE PRICE?

OUR PRICE RANGES FROM \$4300 - \$6400 FOR LASIK ON BOTH EYES.

Some vision plans may pay up to \$2000 of that price. The everyday price for our custom wavefront guided iLASIK procedure is \$6400 for both eyes, but we are currently running a promotion which brings your price to \$4995 if you choose to finance or \$4800 if you choose to pay in full the day of surgery. If approved through CareCredit, you can pay it off in 24 months interest-free with payments of \$209/month or as low as \$124/month for a 60 month interest plan. We have an additional discount of \$500 off this promotional price for Police, Firefighters, EMS, Military and Teachers. Book your free, no obligation consultation to find out if you have any additional insurance discounts/coverage and to take advantage of this great promotion before it expires!

Price subject to change at any time.

WHAT IS INCLUDED?

The price includes all preoperative measurements and exams and any LASIK-related post-operative checkups after surgery for up to 1 year.

DO YOU OFFER FINANCING?

Yes, with payments as low as \$124/month with our current promotion! We offer no money down financing which is interest free up to 24 months through CareCredit. If you're interested in financing, we can guide you through the application process during your consultation
